*.. A TRUE PIRATE  
DRINKS....RUM!*

## RUM

Ask for our RUM Menù

..... From €4.50 (depending on the quality)

Did you know that Rum is one of the oldest and simplest alcoholic drinks, obtained from the distillation of various products with cane sugar. The most common mixture for making rum is water and sugar. As soon as it has distilled, the rum is transparent or a light yellow colour and it's alcoholic content is from 40% to 75%. Dark coloured rums are obtained by adding caramel or left to still in a special wooden barrel. Most rums are produced in the Barbados, in Trinidad, in Jamaica, in Cuba and in Puerto Rico.
